## PROFILE

Computer Science student passionate about web development and programming. Skilled in Python, JavaScript, and C++ with growing expertise in Vue.js. Enthusiastic about building interactive applications and enhancing user experiences.

## PROJECTS

### Personality type MBTI ↗

Aug 2025 - Sep 2025

A simple web app that identifies MBTI personality types through an interactive quiz.

Built with a clean, responsive UI for quick and engaging user experience.

Deployed on Netlify for fast, reliable access.

### Tunes ↗

Sep 2025 - Sep 2025

A Vue.js-based music app with Firebase integration for data handling and authentication.

Designed with a sleek, responsive UI for browsing and managing tracks.

Currently limited in playback features due to API restrictions.

### Tailored Tech Trove ↗

Feb 2025 - Feb 2025

An AI-driven web app built during an AI hackathon using the Lovable platform for rapid development.

Features a clean, responsive UI tailored for showcasing tech content.

Designed and deployed as a fast MVP to demonstrate AI-assisted app creation.

### Online Voting System ↗

Apr 2025 - Apr 2025

A demo platform showcasing an early concept for reimaging the online voting experience made with Lovable AI.

## SKILLS

Vue.js  
Nuxt.js  
MongoDB  
Python  
JavaScript  
TypeScript  
Tailwind CSS  
Figma, Framer  
HTML, CSS

## EDUCATION

### Bachelor's in Computer Science

NxtWave Institute of Advanced Technology  
August 2024 - August 2028

### Bachelor's in Computer Science (Online)

Birla Institute of Technology & Science  
August 2024 - August 2028

## LANGUAGE

**English:** Fluent

**Telugu:** Fluent

**Hindi:** Intermediate

## CERTIFICATE

### Build for Telangana Hackathon ↗

A participation certificate in the "BFT" event hosted by NIAT

### Ethical Hacking 101 ↗

Certificate of completion for the "Ethical 101" course at the NIAT
